

Electronic Visit Verification (EVV)

Identify your path to a smooth EVV implementation

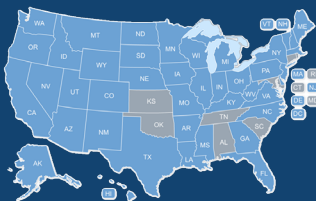

Trying to figure out which EVV solution to select? In many states, providers can choose between a state-procured EVV tool or an Alternate EVV solution.

To get started, ask yourself these 5 questions:

- Do you provide care in one state or multiple states?
- Do you already use an Electronic Medical Record (EMR) or Electronic Health Record (EHR) system?
- Do you have a staff of more than 30 caregivers?
- Do you provide EVV mandated services as well as services which are not subject to the mandate?
- Do you submit claims to multiple payors, such as State Medicaid and a Managed Care Organization?

If you answered yes to one or more of the questions above, you are likely facing some complexity with implementation. We are here to guide you with our complimentary, state-specific guidance for EVV compliance.
